EAL Level 2 Diploma in Engineering Technologies

Location	Stretford Campus
Duration	1 year
Full/Part time	Full-time
Department	Engineering

Course Overview

The course details consists of mandatory and specialist Units:

the mandatory units include:

Engineering Environment Awareness

Engineering Techniques

Engineering Mathematics and Science Principles

Specialist Units consist of:

Fitting and Assembly techniques

Manual turning techniques

Computer numerical control milling techniques

This qualification has been developed to provide learners with an intermediate knowledge and understanding of the practices of engineering technology. It covers knowledge, understanding and skills that are relevant to a wide variety of careers and study routes and take a hands-on approach to basic engineering training. Contact Course Enquiries on 0161 886 7098. Start date: 02/09/2019

Course Requirements

4 GCSE's at Grade 4 including English Language and Mathematics

Course Progression

EAL Level 3 Engineering or Level 3 Btec in Engineering

Course Assessment

one externally set assessment/examination plus internally set and marked assignment

Course Finance

The course fees for academic year 19/20 are £1680.00

Additional Costs

0.00

Course Additional Information

Full-time
