

# ARE YOU

# COLLEGE READY?

## Life as a chef...

There are different types of chefs within the kitchen, for example some chefs are primarily responsible for a specific section (Chef de Partie), whereas others such as the Sous-Chef are involved with running the kitchen and responsible for taking on tasks in place of the Head Chef. The Head Chef is usually accountable for creating new menus, costing dishes, food ordering and controlling budgets. Successful chefs are also able to develop new ideas and innovative ways of improving their cooking to meet the demands of customers. The hospitality industry provides multiple opportunities for qualified chefs.
